LUNATA CEILING AND PENDANT LUMINAIRE

A luminaire series – unique and versatile – ideal for innovative lighting concepts.

Lunata has been created for beautifully designed spaces for meeting and communication.

Available in five sizes and with different mounting variants, Lunata allows for total design freedom. With the new generation of Lunata, LTS guarantees an extremely efficient, high-quality and energy-saving luminaire with particularly homogeneous illumination. A light effect ring provides for the creation of atmospheric highlights. Lunata can be used to create four different light concepts. In addition to direct (01) or direct/indirect (02) light behind the luminaire, a light effect ring opens up additional options to form impressive, creative illumination highlights with direct lateral (03) or direct/indirect lateral (04) effects.

In terms of basic lighting, Lunata is particularly eye-catching when used in office spaces or in the catering industry.
