

NOW WITH A NEW VARIANT!
ORYO HIGH EFFICIENCY

ORYO FAMILY

DESIGN MEETS EFFICIENCY

LTS

AT HOME IN RETAIL

ONE FAMILY
MANY POSSIBILITIES

The ORYO luminaire family from LTS is completely redefining light in the retail sector. Thanks to the different recessed, pendant or track-mounted luminaire variants, very different areas can be designed with a single luminaire range. Every ORYO variant reflects the coherent design language in an elegant conical shape. The small yet efficient spotlight impresses with its high power level and good light pattern at a minimal size. It brings a new focus with its tapered shape and perfectly places the products in the limelight.

SMALL YET POWERFULL

ORYO TRACK-MOUNTED SPOTLIGHT

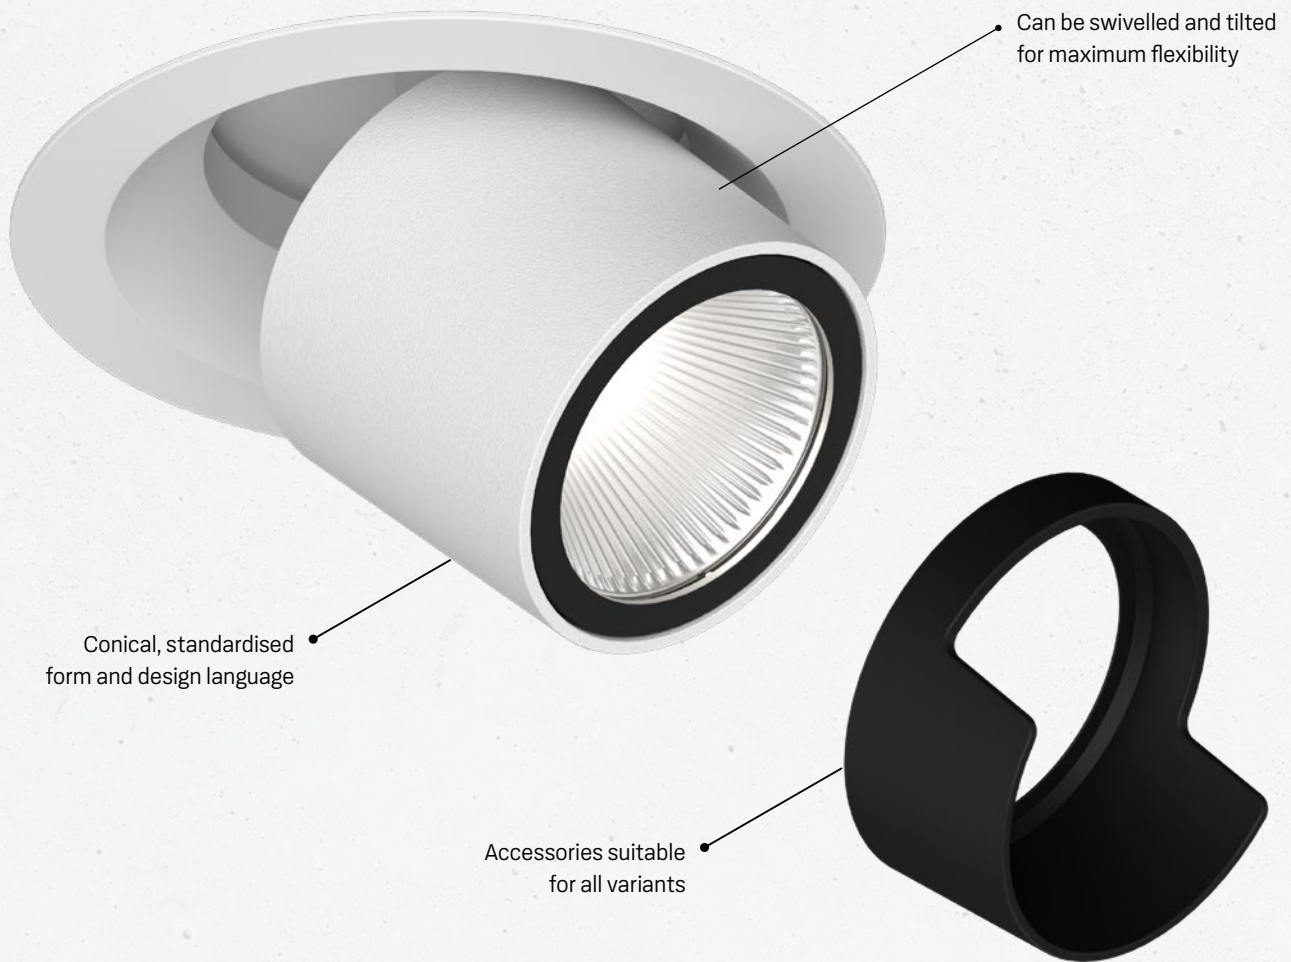

Despite its very compact design, the ORYO family has a high level of luminous flux. With its elegant and conical shape, ORYO offers efficient and flexible lighting solutions for retail and hospitality. The result: ORYO perfectly sets the scene for your products and premises.

ELEGANT AND EFFICIENT

ORYO PENDANT LUMINAIRE

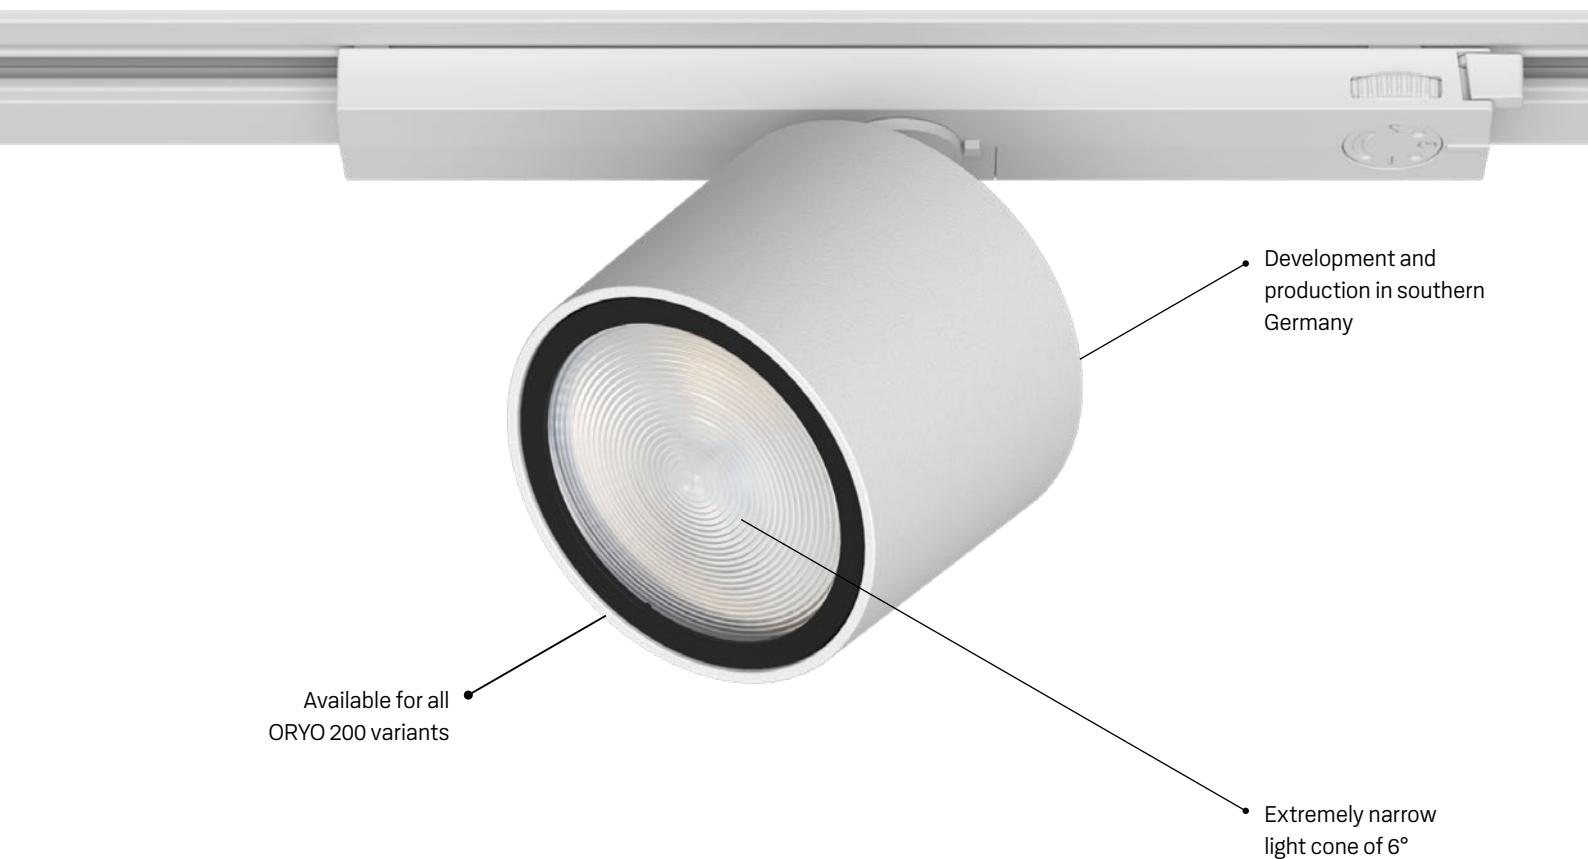

With its conical design, the elegant pendant luminaire is a bright spot for all areas of hospitality. The look can be customised thanks to the different variants and the numerous accessories. With this level of flexibility, ORYO can be used in a wide variety of areas.

COHERENT AND VERSATILE

ORYO RECESSED SPOTLIGHT

The ORYO luminaire family is a visually uniform family that fulfils all requirements in retail and hospitality. The look can be customised in line with each area and function using the extensive range of accessories. Yet, the same design language always shines through.

Available for all
ORYO 200 variants

Development and

Extremely narrow
light cone of 6°

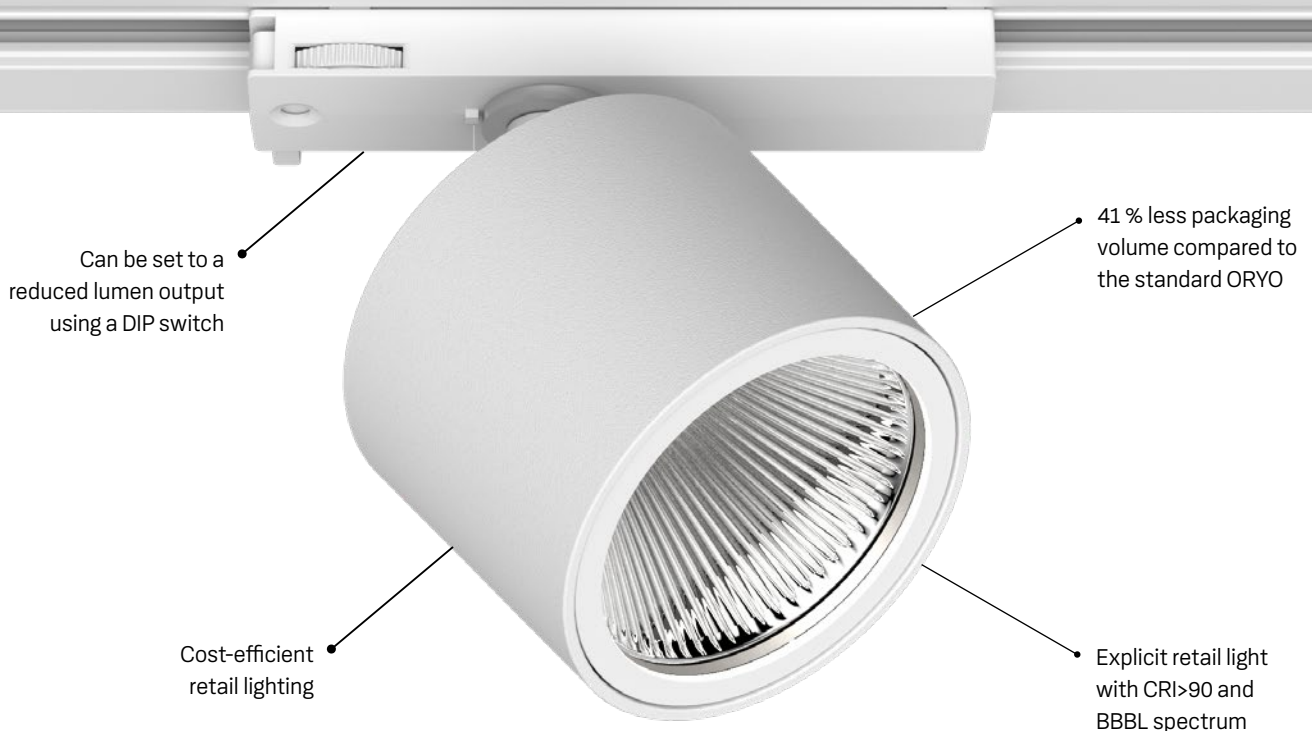

LENS 6

SPOT ON

LENS 6 – FOR ALL ORYO 200 VARIANTS

With Lens 6 and its 6° beam angle, ORYO 200 offers the perfect addition to the 15°, 25° and 45° beam angles. Given the wide range of recessed, pendant or track-mounted luminaire variants, it is easy to accentuate different areas and optimally create various lighting moods.

The elegantly conical shape of the body of the entire ORYO family catches the eye. The minimalist and unobtrusive design blends seamlessly into existing interiors and puts the products and objects to be emphasised in the right light. ORYO's premium design is completed by efficient output and an extremely good light pattern.

ORYO HE

MAXIMUM EFFICIENCY

ORYO HE – PERFECT LIGHT AND ENVIRONMENTAL AWARENESS

The ORYO 200 track spotlight is now also available as a „high efficiency“ version. The ORYO HE scores with minimal power consumption, maximum performance and excellent light quality. It is an extremely economical and sustainable solution for the retail sector. With its special BBBL module, it guarantees vivid, precise and brilliant colour rendering, which is particularly important in the retail sector. The packaging volume of the new spotlight has been reduced to a minimum. Multipackaging is possible in larger quantities, which also minimises the transport volume and reduces the packaging material. The DIP switch can be used to reduce the lumen output to the required value, further optimising performance and power consumption. Your ecological footprint is sustainably minimised.

Easy to install, now also with double head per adapter

Reduced to the bare essentials, no glass for even better efficiency

360° flexibility

ORYO HE TWIN-HEAD

ORYO HE TWIN-HEAD – TWO SPOTLIGHTS ONE CLICK

The ORYO HE track spotlight is also available as a twin-head spotlight. With the added value that two light points are mounted at once per installation process, which can be aligned as required. The manoeuvrability of the individual spotlights ensures 360° flexibility. Thanks to its compact design and efficient electronics, the twin-head ORYO HE is easy to install and requires virtually no maintenance. You save installation time and material at the same time with double the light and double the efficiency. In high-traffic retail areas, the ORYO HE is the perfect solution when controllable spotlights are not required.
